If you are looking for a romantic, lovey-dovey astrology report, you won't find it within these pages. Please keep in mind all of the kinky, spirited and feisty remarks you will read are only intended in the spirit of fun, and are only suggestions for ways to play and perhaps challenge your boundaries. Feel free to happily ignore all wet and salacious remarks that do not apply.]

Herein lies the Gate to your Sexual Self

Its scent is musky and its feel is moist. Its song is sweet and trembling, feverish and blinding, dark and tormenting, frigid and cold. If you read things here that furrow your brow, causing a crease that looks remarkably like a little man in a boat, this is a sign from the gods that you are about to learn something momentous! Brace your buttocks in your chair! Should you not be in the mood to knock on the limbic door of your inner brain, quickly shut this report! No one need ever know...

The Building Blocks Of Your Nature Blaze!

“...Fire, I’ll teach you to burn...”, like the Arthur Brown song says. With lots of planets in fire signs in your chart (Aries, Sagittarius, and/or Leo), you have great enthusiasm for whatever the project is in front of you. So, if it is riding your partner into the sunset or sitting in the car at a red light with your hand down your pants, it is done with great gusto and enthusiasm! When the experience is over, you will move on happily to something else, with a bright red feather in your cap. Easily inspired and enthused, you can light the fire at a party and step back to enjoy the results with a proper self-centered glow.

Hedonistic!

You have a lot of planets in the earth signs in your chart (Virgo, Taurus, and/or Capricorn). Practical and loaded with common sense, and also with a heavy dusting of carnality, you revel in the senses. Sex is a voluptuous experience, like rolling in a mud puddle and getting slippery and wet and very lush. Foods, smells, and touch affect you deeply. While there may not be too much romanticism in your approach, your partner’s desires will not be wanting in the physical arena! You may tend to get stuck in ruts, and will need an imaginative partner to encourage you to try new positions or circumstances in the game of hot tamale sex.

Inquiring minds want to know!

You have a lot of planets in the air signs in your chart (Gemini, Libra, and/or Aquarius). With lots of air, you are a brainiac and your best sex will be in your mind. You have loads of ideas of ways to try different sexual adventures, and while some may be troublesome to implement, it’s the thought that counts! Phone sex or cyber sex may be more appealing to you than mundane, earthy intercourse, which can get a bit messy. Keep a thirsty hotel towel handy!

Eager to drench!

You have lots of planets in the water signs in your chart (Cancer, Scorpio, and/or Pisces). With lots of water, emotions color everything you do. You are constantly sniffing out the vibrations in a room, or around a person. You can feel your partner’s reactions and feelings quite well. This is very seductive. It can be a great boon, subtly shifting and moving according to the partner’s sexual needs. They will think you are a magician! It can also be a problem, as lots of water can be in-your-face and smothering, without boundaries. It’s like getting a cellular-level body wash with someone else’s bathwater. A little disconcerting! Have your partner tell you when to back off, and then do so graciously without pouting or making sullen remarks.

Your Scent is Perfectly Balanced and Aromatic.

You have planets evenly dispersed throughout the modalities. Fixed energy - steady, firm, regular – just like we wish our bowels would be; cardinal energy – self-starting, busy, pushy energy – too restless for real long term work, but great for enthusiasm and starting up; and mutable energy – flexible, adaptable, a real good worker bee. With these energies balanced in your chart, you are the perfect person. Everyone wants you! You have a nice balance of steadiness and solidity for long term relationships, enough aggression to pick up a hot, steamy piece of meat, and some nice flexibility for all those pretzel shapes and eccentric ideas a person may wish to investigate during a night of steamy lovemaking.

THE SIGN ON THE ASCENDANT: Your Animal Skin

The Ascendant in your chart, (otherwise known affectionately to this astrologer as “the Rising Sign”) is your own native animal skin you wear about your shoulders and through which you physically face the world. It is the sign that was spreading out its earthly influence all over the horizon, opening its legs and scenting you with its own musky peculiarities when you were born. This paints your personality with colorful symbols, richness and a certain vibratory chemistry.

“Excuse me while I slip into someone more comfortable.” Unknown

Your Animal Skin is in Libra.

The scientific sexologist, you have researched sex and find the idea of it fascinating and romantic. You would like to try your knowledge out on intelligent and non-repressed partners. Partnership orientated, you want to please your partners in an active, romantic, idealistic way. And they all respond to this by the mere fact of being in your desirous presence. You need a strong partner that can keep up with you, and satisfy your romantic ideas of what love and sex are, or you’ll toss them aside in disillusionment, and look for the next ripe piece of romantic, idealistic splendor to feast your intelligent beauty and hands upon!

The Sun: That Radiating Warmth

You radiate heat, which warms up the birth chart where the Sun is placed like a honey-amber shaft of super-intelligence. It throbs and energizes everything it touches within the spectrum you call Yourself. To see how the Sun plays, fights and dances within the essence of You, look to the other planets and angles and the house where the Sun has taken up residence, to see what feverish and egocentric interactions are occurring in your baby cells.

When the energizing Sun powerfully connects (conjunctions), challenges (squares), and provokes (oppositions) the other planets, there is a tendency to energize the Sun in a vigorous manner so that your ego sits heavy and fat in the saddle. When the exuding Sun flows (trines) and supports (sextiles) the other planets, it gives warmth and confidence and a natural ebullience that can warm cold tootsies.

**“Nature produces the greatest results with the simplest means.
These are simply the sun, flowers, water, and love.”
-Heinrich Heine**

Your Warm, Radiating Sun is in Sagittarius

Your vital and energetic glow is fiery and enthusiastic. Aggressive, lively, and lovely, you'll approach the partner of interest and make no bones about it. Having heartfelt inclinations to the outdoors and nature, making love outside under the stars, or on a beach, or in a canoe, can really send the fluid running to your loins. Listening to the owls hoot while you engage in some very febrile and unruly lovemaking is your idea of a great way to saturate you and your lover with some creamy gravy. You are known to have a wandering eye. To you, it seems as if a lot of people you meet could be the ideal lover for some decent mind-blowing copulation. For some real mind-expansion, try connecting to your partner while swinging naked from a vine, and then letting go, at the moment of orgasm, dropping down into a cold lake or pond.

The Sun Exudes in the Third House

You are bright and talkative. Your teeth glisten in the lamplight when you talk seductively to your lover, and he or she watches the way your lips move and purse over your slowly formed erotic words. They wonder what it would feel like to whisper in your ear, vibrating little ear hairs or slipping a pink tongue into your dark wet mouth. You have a wiggling good time with fantasies, flirting, and glib sexual connotations, but the truth of the matter is you are all talk and no action. No one knows this, though, rest assured that everyone thinks you are very promiscuous and titillating! You may share your lover's sexual expertise with your salivating friends, as coffee bar talk (much to your lover's chagrin), because you enjoy seeing your friends eyes glow wetly at your undignified stories.

Your Sun challenges (squares) Your Moon's Wet Feelings

Your emotions are in conflict with your natural self. To handle this you will either spray everyone within 20 feet with emotional outbursts, or just repress your feelings to get those emotions out of the way, storing them in your big toe or some other place where sickness likes to mutate. Sexually, you can be a screaming cat devil when you're getting your biscuits toasted, or you can be so closed-mouthed your partner will have trouble telling whether you've had an orgasm or not! Whichever one of these types you are, express the opposite to challenge yourself.

Your Sun supports (sextiles) Jupiter's Abundance

You have little golden nuggets of opportunity awaiting you around every corner. Sometimes you pick them up, and sometimes you don't. It all depends how delectable the person's body and mind looks that is draped across your twinkling toes. Since you have more than your fair share of good luck, to please the Lords of Karma you must share your beneficence with others. Otherwise, (and I have it on the best authority) in your next life you will be tied naked to a chair and others will take terrible advantage of your poor trembling body!

Your Sun powerfully connects (conjuncts) the Uranus Wiggle

Hidden under your hat is a rambunctious, experimental sexual risk taker! Anyone smart enough to look closely into your eyes, will see it glistening avidly there, waiting eagerly for another chance at expression. And even though you do have dog days, you are meant to explore, improvise, and seek out new and original sexual experiences. If you are feeling cynical and worldly and having "done it all", you might as well just go back to bed! God meant for you to experiment, so put on your silver metallic spandex stirrups and get cracking!

The Moon: Feelings, Nurturance and Wetness

Wherever the Moon is placed like an oozing dew drop, is where feelings abound and sometimes run amuck. It's also where you like to do what feels good to yourself, things that you certainly will do, whether alone or with a lover of great fortitude! When the Moon touches another planet it creates a swirling tropical cocktail of its own milky needs and is to be tasted and experienced with great gooeey gusto.

When the Moon powerfully connects (conjunctions), provokes (oppositions), and challenges (squares) the other planets, this tends to give the Moon a more powerfully reactive state (much harder to control!). The flowing (trines) and supporting (sextiles) aspects are soft and dreamy, sometimes in a sweet, mellow way, other times in a lazy, indulgent and chubby way.

“I think sex is better than logic, but I can't prove it.” Unknown

The Moon's Emotions Undulate in Virgo

With the Moon in Virgo, you respond with common sense and flexibility to emotional situations. Practical and logical you like emotional issues to be resolved and swept up right away. When things aren't taken care of, you always manage to put up quite a fuss. Your lover may need to put something lively in your mouth to distract you and quiet you down! Unfortunately, this may not work because when you see something out of sync, you start having paroxysms of sweaty distress! Look for partners that are accepting of your critiques and fetishes. If you perchance travel down the avenue of kinky love, you can get into tender punishment scenarios with any naughty lover that talks back to you. This could be decidedly fun if you think about it for a moment. What sort of punishments would you implement? There are so many to try to create the desired rose-flaming and drenching effect on your poor, quivering lover.

The Moon Soaks the Twelfth House

With the Moon in the twelfth house, your feelings are hidden, reflective and moody. You will unconsciously stuff emotional duress away, safely packed away in a trunk somewhere in your body, and hiding the feel of those seeping feelings by working hard, smoking hard, drinking hard, and/or playing hard! It's a bit hard to keep emotions in a locked trunk, as they just ooze out through the cracks and crevices, and burst out at the most inopportune time to assail you. And you will have forgotten the incident when you squished it in there, and wonder - what the hell is this?! Clandestine liaisons at masked balls with married lovers, or in some other hidden and secretive place, suit you, with your mysterious, undercover veneer. You need someone aggressive to boot you out of your little hidey-hole and get you giggling and wiggling, squirming and damp!

Your Moon challenges (squares) the Uranus Wiggle

Spicy, edgy and exciting, you are an intelligent, impatient character that cringes when stupidity bares its broad buttocks. Erratic and stubborn, you are great for causing scenes to remember, as your sharp but discordant mind sizzles outward. People don't know whether to laugh, cry or yell when your dancing, prancing postures take place, as you leap from toe to toe, causing electrical shorts in the atmosphere. Use sex as an outlet for some of this discordant energy, if you can settle down long enough to get your jeans down around your ankles, though you may run the risk of tripping. Tying you up and manipulating you should provide your partner with some interesting convulsions to observe! Watch out for ill-timed sexual explosions.

Mental Expression

Your mental expression articulates and gesticulates in the birth chart where Mercury is placed, like a mime in a leafy city park. Look at the sign placement, the house placement, and the other planets involved with mischievous mental-case Mercury to see how you will experience your communications and thought processes.

The powerfully connecting (conjunctions), challenging (squares), and provoking (oppositions) aspects tend to give Mercury's quicksilver tendencies, a laser zap in consciousness. The flowing (trines) and supporting (sextiles) aspects are softer and more laid back, but they also speed the brainiac synaptic environment up to a nice clip!

**“Love is the answer, but while you are waiting for the answer,
sex raises some pretty good questions.”**

-Woody Allen

Articulating Mercury flirts in Scorpio

Mentally you think in a penetrating, intuitive way and have a focussed, psychological way of speaking. Your thought processes feverishly steam in a continuous manner over your nerve fibers, forming obsessions involving just about any subject or person. What fun! It is this penchant for obsession that allows you to research so very deep into the recesses of the collective mind. It also gives you a sense of humor that is dry and clever, reacting to the subtle animations in others with bubbling, chortling laughter. You can touch people's sensitive buttons easily, and will not hesitate to zap them, should they annoy you with their infantile games. You devilishly pick up sexual innuendoes in the most sweetly innocent of conversations, grinning shaggy smiles all the while. Because your tongue goes very deep, it is finely tuned to the art of psychological probing, its assets are implicated elsewhere, like in the world extremely exciting deviations!

Mercury's Intercourse Reverberates in the Second House

With Mercury's verbal intercourse echoing in your second house, you are careful and thoughtful in your speech. Conversing with others, coming up with new ways to make an intriguing buck, using your working, chugging mind is a sensual experience for you. This kind of activity can be a preliminary to some lusty sex with a little intentional focus, as both sex and money are both so very hot, don't you think? When lovemaking you interact in a down-to-earth manner with your partner. You are practical, liking to structure things so you know what's going on, what's expected of you! Being jolted with a surprise can ruin your mood, quite literally, turning you into a big sourpussy. You have no problem trying new toys or positions, but if you find one you like a lot, you may get stuck there, oblivious to all else. Find a partner that gently moves you out of those old sexual ruts.

Your Mercury powerfully connects (conjuncts) with Delectable Venus

You express yourself with grace and taste, sexually tweaking all listeners within hearing distance, without really meaning to. Everyone loves to listen to you, watching your mouth move, wondering what it would be like to kiss it, hoping they can turn a friendly peck on the cheek into a quick slip of the tongue. Yummy! You dislike confrontations, and would rather swing on a tire, than have rumbling, deep, unnerving discussions. You have a certain flair about you that is eye-catching, pleasant, and elegant, even when in frumpy clothes. Sexually you could talk a potential sweet into bed in a tempting and suggestive way, making your lover think they are getting much more than they might be!

Your Mercury powerfully connects (conjuncts) Saturn's Restriction

You will usually find what works for you sexually most of the time, and stick to that, in the hopes you'll at least score once. This is fine, and allows you to really develop the specific techniques you have chosen as your "trademark". On the other hand, you can find yourself in a rut and at a loss if you discover your lover isn't into your favorite bag of tricks. What will you do? Ask them what they like? Or are you too shy? Avoid and pretend? Please, don't let that stop you – force yourself to open your red mouth. Choose talkative, confident lovers to assist you with your panties, and then some. Avoid being too critical; you'll end up all by your sad lonesome, you and your friendly but untalkative hand, singing the banjo blues.

Desire and Attraction

Your desire and attraction flower and sweat fragrantly through the birth chart where Venus is placed like a musky perfume. Look at the sign placement, the house placement, and the other planets involved in the Venus pheromonal love dance to see how you will experience your wants and needs, give affections, and gratify your most astounding self!

If you are a woman, Venus shows how you expose your femininity. If you are a man, where Venus is placed is the type that you are attracted to, the type that will make your wand stand at attention and perfection! Venus is also your “Inner Feminine”, waiting to be contacted and explored for healthy emotional balance. (Little secret: A man in contact and working with his inner feminine flower is like a man wearing a sarong or kilt – very charismatic and magnetic!)

When Venus powerfully connects (conjunctions), challenges (squares), or provokes (oppositions) the other planets, she tends to be more feisty and provoking, and has more liveliness to her sexy twitching tail. When Venus flows (trines) with and supports (sextiles) the other planets, she is very soft and creamy, indulgent and lazy. The Butter Queen!

“What is a promiscuous person? It's usually someone who is getting more sex than you are.” Unknown

Enticing Venus is in Sagittarius

With Venus in Sagittarius, you are a feisty little package of meat! On the go and full of love of life and all its peculiarities, you exude charm, intelligence and warm humor. Your eyes have a heated, lively look to them. When in love, you are adventurous and exploratory and may have a fiery, quick release. Your desire nature burns enthusiastically, like a bonfire at a beach party! You are playful, but also like to groove to the natural sex vibes when you are riding the thrumming rocket energy of sexual love. Sex outdoors, like skinny-dipping on a secluded beach, or maybe in a canoe, or what about in a cool treehouse?, is your idea of “technique”. Flirtatious and friendly, you are game for a physical sexual experience that exudes a challenge, in a natural, enthusiastic way, and that opens your fresh, inquisitive mind to new sexual highways of experience.

Your Venus is frolicking in the Second House

With Venus swinging her hips in the second house, you show affection by showering your lover with physical things. Like chocolates, silks, hand-fed sushi, little neck clams slurped into your lover's mouth (along with a bit of seawater) and of course, long lasting serial sex that leaves the couch stained and pitted, smelling delightfully fragrant! Sharing sensual massages would be a good preliminary, or dressing each other in silk thongs or scarves, making sure the little straps are placed strategically and pulled nice and tight! You are steady and secure to have around, and you are not above blowing a few bucks on your lover to make sure the whole experience is complete and sensual.

Your Venus powerfully connects (conjuncts) Saturn's Restriction

You are a determined master or mistress in love. A very serious player, you test and play for keeps. Your desires are steady, delicate, refined and intense, and do not abate. Because of these qualities, the affairs of the heart can be painful for you; there is a sense of bondage or karma that drags you along, somehow mysteriously preventing you from breaking away (or breaking into). Experiment with a trustworthy loving partner. Try being tied up with silky scarves and then have your lover gently apply one of those soft leather multi-tongued thong-whips to your very sensitive and delightful bottom. Feel the soft leather squirm and slither over a bottom that now seems to speak! Have your drooling lover tantalize you in this manner just enough to make your insides rattle around a bit and cause a fluid rosy rush to somewhere below the humid equator.

Personal Power and Sex Drive

Your personal power and sex drive notifies you of its thrust through the birth chart where Mars is placed like a phallic prong. Look at the sign placement, the house placement, and the other planets involved to see how you will experience the Mars' battle of competition, assertion, along with the most favored rutting of champions!

If you are a man, Mars signifies your exuberant masculinity. If you are a woman, where Mars is placed is the type that you are attracted to, the type that will make your jade gate open, your flower bloom. Mars is also your "Inner Male", waiting to be contacted and explored for healthy emotional balance. (Little secret: A woman in contact and working with her inner male cocky ya-ya is incredibly sexy and magnetic!)

The planets that powerfully connect (conjunctions), challenge (squares), and provoke (oppositions) Mars, make him strong-willed and self-oriented (unless paired with Neptune). Like Zena or Hercules, the warrior stands vigorously! The planets that flow (trines) and support (sextiles) tone down Mars' gnashing teeth and manifest a more balanced and less rough use of these ambitious, squirting energies. This all depends on which planet chooses to combine with Mars and his sexual grapple to the pinnacle!

"Sticks and stone may break my bones, but whips and chains excite me" Unknown

Mars' Sexual Urge rises in Libra

With Mars in Libra, you express your sexual energy in an assertive and practiced way. Unfair treatment presses your buttons and gets you moving! You are tuned into your partner and like nothing better than having them explode under your fingertips. Being a lush lover of the sexual experience, and a true believer in the saying "I'll scratch your back, if you scratch mine", there is great anticipation when it is your turn to receive those scratches! A little wrestling action or jousting can raise the level of passion to an exquisite, humming, hot level. Should your partner be disinterested in the giving and receiving game, you will deposit them without much fanfare at the corner Quikmart, grimacing in disgust.

Mars' Sexual Urge beats in the First House

With Mars in the first house, your sexual energy plays out in a direct and vigorous way. It is potent and heady and cruising. Get out of your way, baby, train coming through! What you see is what you get, and you make no bones about your powerful lust as it beats out bass-like atmospheric waves (your own special sub-woofer)! You couldn't hide this force under a bushel, should you even try. Impossible! You are honest and like the same directness. Being a dominant lover is one of your secret joyful lusts that vibrates your body's cells like a marching band.

Optimism and Abundance

Your optimism and abundance deliver the spiritual and material goods in the birth chart where Jupiter is placed like an overstuffed and magnanimous Titan, secret gifts of plenty spilling from his pockets, making a prodigious mess around his feet. Look at the sign placement, the house placement, and the other planets involved in Jupiter's broad-minded search for the sensual meaning of existence, to see how you will experience your own optimism and cell-expanding abundance (and also the twinkling light on your spiritual path).

Jupiter powerfully connecting (conjunctions), challenging (squares), and provoking (oppositions) the other planets tend to magnify Jupiter's generous mood in an intoxicating, bloated manner. When Jupiter is flowing (trines) or supporting (sextiles) the other planets there is an excessive swelling as well, in a sweeter lazy way, like a nudge on a couch, eyes half-closed, mind pleasantly buzzing, stomach stuffed with burritos and beer.

"I generally avoid temptation unless I can't resist it."

-Mae West

Jupiter's Abundance spills in Aquarius

Your enthusiasm has a futuristic intelligence to it, dropped down into this century from a little space pod, and is a brilliant, startling spirit! The gift of Jupiter for you is growth through experiencing the interpretation of the unfathomable and far out ideas that flood your heated brain, so others can understand and perceive at their own level. Sexually, your open mind allows unheard of sexual techniques to filter down into your noggin from the cosmos, begging to be experimented posthaste!

Jupiter's Optimism pours into the Fifth House

Inspiration expresses itself in you with a playful, open manner. Creative beings or children spring from your head with great regularity! You are the son or daughter of joy, and sex is its most wonderful when it is natural, receptive and open. It is a natural extension of your life, so if sex is peachy and in great abundance, you are usually grinning ear to ear and reeking high intensity pheromones with great gusto!

Your Jupiter supports (sextiles) the Uranus Wiggle

You'll have many opportunities to wreck a little change in your sphere of existence! You see the need for change and actively go about manifesting it. You are ahead of your time, and many will not understand you and your crazy antics, but don't let that get you down! You understand and "see" much better than many other human beings populating this adolescent world. Sexually, you are open-minded, feisty and freedom loving. You should definitely cut a little slit with your school scissors in your white underpants, so your partner's tongue has easy and perhaps secret public access to your pink and holy jewels.

Your Jupiter challenges (squares) the Sociable Karmic Nodes

Fateful and fortunate encounters litter the passages of your life. These incidents display that mysterious mechanism of synchronicity. You know those phenomenal coincidences that change our lives, just through a chance association or incident? Since this happens to you with quite regular frequency, you are probably already aware of this most titillating and magical energy! To create more of these breathless “unity of time” moments, you must be ready and alert. You may find that some of these encounters cause conflict and agitation within your soul. Nevertheless, it is imperative to go there and pluck the seeds of wisdom from them, for later, muy importante use. Sexually, the lovers of your past, present and future are karmic messengers. The only way to find the message they bring is to go into their naked heart. Hidden in the left ventricle is a folded note specifically for you. It takes a bit of work and exploration. But - no work, no special message from the beings of Love!

Patience and Persistence

Your patience and persistence plod ever onwards through the birth chart where Saturn is placed like a Big Daddy, stubbornly insisting on work and responsibility, the old curmudgeon! Look at the sign placement, the house placement, and the other planets involved in Saturn's authoritative, restrictive policies to see how you will experience your need for discipline and manifest great endurance. This includes being mentally flogged occasionally – by yourself and others – so you get the message! (Don't worry, it all works out in the end.)

The powerfully connecting (conjunctions), challenging (squares), and provoking (oppositions) aspects tend to bust Saturn's iron nuggets, (or yours!), causing frustration and tension but also making available great endurance and fortitude. The flowing (trines) and supporting (sextiles) aspects soften the frustration and tension, letting things work together rather well in a steady, productive and practical manner, giving a decent share of self-control to aid in the manifestation of sexual (and otherwise) successes.

“Sexual harassment will not be reported, but it will be graded.”

-Anonymous

Saturn ties you down in Sagittarius

You respond to structure and limitation in an impatient and mouthy way. Your philosophical and religious beliefs are a point of great insecurity for you, though you cover this up splendidly by voicing all the wisdom of the ages with great authority! They call your type “a fence sitter”. Nevertheless, deep inside your bowels resides scads of true heartfelt wisdom encased in a Sacred Clown or Trickster costume, begging to come out and play in that interminable way that Sacred Clowns do. Set it free! Sexually, if your lover has a handhold on you that just won't quit, you will respond by mouthing up a distracting word storm in an attempt to loosen their sweaty grip, so you can break free and escape through the swinging doggie door!

Saturn has you under Second House Arrest

Responsibility and limitations express themselves in your sense of security. Money is a big bugaboo for you! It doesn't matter if you have mucho dinero at your fingertips or are selling matchsticks in the snow, barefoot - you work hard for the money and it is a sore point with you, bothering you like an itch you can't reach to scratch, damn it! You want to know where it's all going, every last bleeding cent of it! Sexually, don't hook up with someone who wants you to buy them presents to show your love because it ain't happening sugar! You are a very sincere creature, who may be a bit dry in the sensuality department when younger. But as you age you acquire a certain intrepid delectable taste, (that is acquired through work and not a given) not to be found elsewhere. Work it, baby!

Individuality and Independence

There is a natural life energy that is sexual and lies coiled and resting at the base of the spine. This is called Kundalini. Some astrologers believe the planet Uranus is representative of this energy. When Kundalini is triggered gently (or forcefully), it flows up your spinal cord, through the chakras or energy centers and meridians, unless blocked. Briefly, when blocked, it can cause disease and/or physical, emotional, mental or spiritual problems.

Kundalini and Uranian energy is a sexual, creative, electromagnetic synaptic energy that keeps our electrons twisting and sacredly dancing the night away! It has an abstract, far out influence that is filled with spontaneous genius and creates a big sky mind (expansive). It deserves to be cleaned vigorously and grounded on a regular basis so our eyes are lit from within...

Look at the sign placement, the house placement, and the other planets that are electrified in aspect by Uranus. The powerfully connecting (conjunctions), challenging (squares), and provoking (oppositions) aspects tend to create a hyper-wiggling or nervy energy that is hard to contain and needs lots of freedom to exist in its space. The flowing (trines) and supporting (sextiles) aspects intertwine together better, but still create a Uranian current that pulsates the airwaves and your nervous system, zapping consciousness with overflowing, lightening intelligence.

**“Like a fierce wind roaring high up in the bare branches of trees,
a wave of passion came over me, aimless but surging...
I suppose it’s lust but it’s awful and holy like thunder and lightning and the wind.”
-Joanna Field**

Your Uranus Swings in Sagittarius!

Your generation’s sexual kundalini energy is fiery and courageous. Your spinal cord, once grounded and triggered gently, will create inspiring ideas that wet you silly, by being stimulated with real Truth and the dynamism of Nature. Try combining religion or spiritual beliefs with sexuality, researching what other lands and people do when coming together sexually. You will find seeds of Truth to apply to your own beating existence, making it stronger and pulsating it like a rocket of inspiration and joy! Take a trek or quest to a place wild and rich with Nature’s primal energy, like roaring waterfalls or bald mountain peaks or rocky islands. There, mate with your lover with astounding celebration!

Uranus is taking liberties in your Third House!

Independence, eccentricities, and sudden change exhibit themselves in your communications. Mentally, you are a step ahead of everybody! Friends, neighbors, and relatives galore, information abounds when you’re around! With your original, far out mind, you can come up with a lot of varied sexual oral adventures to play, such things that are so mind titillating you are finished (and flushed) before you even get started. Kundalini exercise: In a small group of friends, shut off the lights, and play some undulating music. In the pitch black, weave in and out of each other, touching here and there. Notice how it becomes difficult to tell who’s who and what’s what! Feel the reactions in the room and in yourself. Write down your observations in your trusty notebook.

Creativity and Illusion

Your creativity and illusion exude forth through the birth chart where Neptune is placed, like a vibrational bath with oily colors fluctuating and shifting over the surface. Look at the sign placement, the house placement, and the other planets involved in Neptune's weeping rainbow of inspiration and foolishness, to see how you will experience your creativity and illusion. Musical, mystical and dancery, Neptune escapes the reality of this world in many ways, including sleepiness, drugs, and instants of insanity and autism.

The powerfully connecting (conjunctions), challenging (squares), and provoking (oppositions) aspects tend to diffuse and confuse (read: denial) normal planetary energy patterns, though they do give extraordinary shots of colorful, mystical and creative experiences! The flowing (trines) and supporting (sextiles) aspects are deceptive and hypnotizing, in a lazy, glazed, but inspiring way. Neptune does not respond to the usual practical applications the other planets do. Neptune does respond to (and loves!) warm, energetic work on the body (which can be done through chakra/energy center work), creative endeavors (ah, music!), and mystical experiences, which are excellent channels for it's very magical and sweetly psychotic vibrations.

Neptune's Beguiling Bubble is in Capricorn

Your generation's sexual idealism and sexual receptivity is serious and practical. This also includes plugging along the road set before you, long after the juice is dried up, clueless as to when this actually happened. You approach your wildly creative dreams in an assertive, controlling and business-minded way, and must remember to introduce a little variety and flexibility so that full sexual gratification can occur.

Neptune's Silvery Whistles are heard in your Third House

Sexual fantasies and idealization play themselves out in your vivid imagination and psychic communications. You have the ability to weave a web of seduction with your shifting words, and can send psychic demands to your lover. Fantastic sexual scenarios of erotica can leave your lover damp and panting, furiously burrowing in their gear. Beware of the tendency to be a slippery, hard-to-pin-down or vague communicator, not looking in your lover's eyes. Withholding information is considered deception, and if you do it, your lover will consider the game fair, and do the same to you and your chubby cheeks.

Your Neptune supports (sextiles) Simmering Pluto

A generational aspect that goes on for a trillion years (just kidding), it operates in the background unnoticed unless it touches a sensitive genitalia point on your lovely, pulsating body. At that point, you would feel certain effects taking place at a deep inner core, where a huge light-filled quilting bee is taking place, amongst the spirits and guides that hang out with you. No one will notice these happenings, maybe not even you, especially if you are doused heavily with food, alcohol or drugs (you know, the normal human condition). This miniature, magical Mardi Gras is actually occurring in your DNA, in the spiraling helixes of the gods. There, the helixes twist and turn to a vibrational song humans cannot normally hear; creating new, unbelievable strands that signify outstanding cosmic perceptions undiscovered by little dweeby men in their white, flapping lab coats. Short (or long) periods of autism or insanity manifest, and then, should your consciousness survive intact, evolution takes place with a soft, unnoticeable, undulating pop.

Your Neptune flows (trines) with the Sociable Karmic Nodes

You can weave a web of illusion around almost any poor sod that crosses your path. Anyone sensitive enough will notice your psychic gesturing (which is really quite active), as you seriously and with great amusement weave your unsuspecting and trusting target into a silk cocoon. At this point you will have them for dinner at your leisure, entertaining them all the while with delicate and amusing anecdotes. Sometimes, they have no clue and din-din is a huge drooling affair for you. Other times though, they have tricked you and are grinning shaggy smiles inside as they watch your foolish antics. You have been known to weave your own big, stinky foot into the web, thereby causing yourself a great fall, or left swinging upside down, as you cry beseechingly for help, but, ah, to no avail! Sexually, you can create a sweet illusion that mystifies your lover to such an extent, you can actually have them believing they have had an orgasm when they haven't! A great gift indeed, eh?

Pluto: The Ultimate Orgasm, That Old Black Magic

Transformation and change rumble forth through the birth chart where Pluto seethes like a nuclear vault. Look at the sign placement, the house placement, and the other planets involved in Pluto's scalding cauldron of death and birth, to see how you will experience transformation and change and test your boundaries. Pluto experiences can be painful because of the change and truth involved, yet Pluto is really your Secret Santa. Look for his gifts when the smoky, sulfuric air has cleared. Look under rocks, in between legs, and where the raven flies.

The powerfully connecting (conjunctions), challenging (squares), and provoking (oppositions) aspects tend fester and then spew forth in a powerful, controlling manner when in Pluto's scaly arms. The flowing (trines) and supporting (sextiles) aspects soften and smooth Pluto's continuous, controlling hold. Pluto wants your vulnerability. He also wants you to let go of that which you compulsively grip most deeply. Your primal scream will be heard throughout the galaxy when you finally do...

**“Anything will give up its secrets if you love it enough.”
(George Washington Carver [1864-1943])**

Pluto Rumbles in Scorpio

Your generation's sexual transformation will come about through a descent into the sexual underworld of power and magic, where you will activate a shamanic healing and then bring this gift to others. Anything that encourages exploration of your psychology in an aggressive manner is a particularly provocative approach to get at those sexual fears and blockages faster than a speeding bullet! Intense psychological experiences are major vibrational keys for you.

Pluto is Seething within your Second House

Sexual power games and transformation take place in your finances and your senses. Paying for your baby makes it all worth while! It is not unheard of to control through money or sex or pretty trinkets. It also creates a dynamic feeling of lust that can take you and your lover deep into the bowels of heady sex. This can be positive or negative attention, depending on the state of awareness of the interacting individuals. Positively, it can create a great sensual tension that is wonderfully salivating and decidedly juicy with two eager, consenting, gleefully ready lambchops.

The End and The Beginning

Well, you're all done now! And how do you feel? Why don't you do a spot check? First, check your breathing rate. It should be relaxed and very warm. How does your brain feel? Is it a bit tweaked? How about your beating heart? Put your hand there for a moment and make it warm with your mind. Do your armpits smell musky, like pine? What's going on in your shady nether regions?

Now go pour all the rosy red love in your heart into someone else's heart area for five minutes, at least once a day. Keep it a secret – no telling! A stranger or a friend - pick one. Do it as a visualization and then forget about it. Do it for a month and watch how your body and your life heat up dramatically and sweetly, overflowing like a frothy rosy wave. You will be licking your lips happily all the merry day and your eyes will shine with otherworldly light. People will want to touch you and you will want to touch others...
